

DISARM DARFUR

 | **end China's
arms sales
to Sudan**

Join American Jewish World Service and partners in the Save Darfur movement for a vigil to highlight China's almost exclusive sale of small arms to Sudan and to call on China to take real leadership on the crisis in Darfur.

The Olympics are over, but the fact remains: China continues to underwrite the genocide in Darfur. Trading weapons and diplomatic protection for oil, China bears responsibility for arming and shielding the government of Sudan. In October, China takes over the presidency of the United Nations Security Council. In this leadership position, we can't let China off the hook.
